LEP Census on eRIDE

The New Integrated ELL Information
Gathering and Reporting System
http://www.eride.ri.gov/

Overview of New Features

- Integration of the State Assigned Student IDs
- Summary reports of currently active students
- Tools to verify demographic and service records

Review of Current System

- Set up language, teacher tables
- Use of 'As-Of-Date' to reset the active status of students
- Find a student across schools in district
  - New searching format
- Entering and managing student demographic and service records
- Quick live demo to review

State Assigned Student IDs

- We call it the SASID system;
- Developed by RIDE in 2003, implemented statewide in March 2004;
- Administrative contact:
  - State – Scott Gausland (222-4600 x 2240)
  - LEA – local managers of student records with administrative rights to the SASID system

---

Why SASID for LEP Census?

- Federal and state mandates on reporting academic achievement and improvement in ELA and Math of LEP students receiving or no longer receiving Title III language instruction support;
- To merge with other student information systems, e.g. Special Education Census;
- To allow LEAs share program information;
- To improve data accuracy and efficiency;

How to obtain a SASID?

- All of the 17,000 existing LEP students have been pre-assigned with SASID;
- You will need a SASID record (a student demographic record with SASID) for any 'new' student to be enrolled in ELL program;
- Two situations – live demo
  - In most cases, this 'new' student is already enrolled in the public school system, therefore, already has a state ID assigned;
  - In rare cases, this 'new' student is truly a new student

Summary reports

- Reports of active LEP students for each grade by
  - Gender
  - Race/ethnicity
  - Language
  - English proficiency
  - ELL program
  - Teacher
- For each school in district and district overall
- Future implementation: reports for students being monitored and for those who have already exited progam

Additional tools

- Highly customizable student listings by:
  - Demographics
  - Mac II Scores, Proficiency Level
  - Important dates: DOB, date of entry, start year
  - Other program indicators: IEP, vocEd, Title I, Immigrant and Migrant
  - Service received, FTE computation
- For both currently active students and students being monitored – live demo
- Future implementation: reports for students who have already exited program

Q & As

- Questions?
- Comments?
- Suggestions?

RIDE Contacts

- Program coordinator: Maria Lindia, 222-4600 x 2103, mflindia@ride.ri.net;
- Administrative support: Melissa Cabral 222-4600 x 2101, rid00855@ride.ri.net;
- SASID Administrator: Scott Gausland, 222-4600 x 2240, sasid@ride.ri.net;
- Data Systems Administrator: Dr. Ken Gu, 222-4600 x 2241, kengu@ride.ri.net;

Thank you!
